10:00 – 10:30 *Refreshments & exhibitors*

---

**Workshop: “10 ways to break your MS” run by ChromAcademy**

This workshop will focus on GCMS / LCMS troubleshooting with a presentation on “10 ways to break your MS” followed by a discussion about any troubleshooting issues you have had / may be having.

10:30 – 12:30 Your instrument issues may be as simple as resolving a split peaks issue or poor base line, to something complex enough that it could not be fixed in-house. Perhaps you’ve had a problem that in hindsight you may have been able to resolve without the need for another engineer call out?  
This workshop is open to all abilities.
